

“Create data-related content on LinkedIn for around 2k+followers”

Education

Rajiv Gandhi University of Knowledge Technologies, IIIT Nuzvid, India.

Aug 2014 – July 2018

B.Tech , Computer Science Engineering

SKILLS

Data Analytics: SQL(Queries, Joins, CTEs, Window Functions), Python (Pandas, NumPy, Matplotlib, Seaborn, PyTorch, SymPy, Requests, BeautifulSoup, LangChain)

Data Visualization: Power BI(ETL, DAX, KPI Reporting)

MS Excel: Pivot Tables, Power Query, Power Pivot, Macros

Business Analysis: Market Research, Stakeholder Management, Process Improvement, Documentation, Power Point Presentation

Soft Skills: Analytical Thinking, Attention to Detail, Communication Skills (Verbal & Written), Collaboration, Strategic Problem Solving

WorkExperience

Imaginnovate, Visakhapatnam | Software Engineer

Feb 2020 - Dec 2021

- Developed and optimized **data-driven web applications** using **React.js** and **Ruby on Rails**, improving usability and system performance.
- Worked with **API integrations and dashboard visualizations** to present key business insights effectively.

ReadBytes Software Solutions Pvt Ltd, Visakhapatnam | Software Developer

May 2019 - Jan 2020

- Managed and analyzed **database-backed modules** to ensure accurate data collection and reporting.
- Implemented **data validation, processing, and workflow optimization**, enhancing overall application reliability.

Alcove Partners, Visakhapatnam | Software Engineer

Aug 2018 - Apr 2019

- Supported development of **data-driven client applications**, focusing on backend and interface integrations.
- Performed **data quality checks and basic analytics**, contributing to more accurate project outputs.

Projects

Power Price Forecasting - Energy Market Forecasting [Python | MySQL | Statsmodels | XGBoost | Random Forest]

Jun2025

- Developed a **time series forecasting system** to analyze and predict **Market Clearing Price (MCP)** trends using historical energy market data from May 2022 to June 2025.
- The project involved **data cleaning, outlier treatment, exploratory data analysis, and forecasting** using both **statistical and machine learning** models.
- The system predicts MCP for future periods and visualizes trends, seasonality, and model performance metrics.

Edubot – AI-Powered Learning Assistant AI Engineering / Conversational AI [Python | Streamlit | Google Generative AI (Gemini) | FAISS | HuggingFace Embeddings | RAG Architecture]

Jan2025

- Designed and deployed an **AI-powered chatbot** using **Streamlit and LangChain**, enabling dynamic interaction with PDFs through **Retrieval-Augmented Generation (RAG)** for accurate, context-based responses.
- Integrated **Google Gemini models** for multimodal intelligence — supporting math problem solving, graph plotting, summarization, quiz generation, and image retrieval in an adaptive **multi-agent environment**.
- Enhanced user experience with **custom UI using CSS and JavaScript**, delivering an interactive, visually appealing, and memory-enabled conversational interface for intelligent knowledge exploration.

CodeX Survey - Food & Beverage Industry [Power BI | SQL] | [Live Dashboard](#) | [Video Presentation](#)

Nov2024

- Prepared and interpreted an extensive market research project for CodeX, a German beverage company, entering the Indian market.
- Utilized Power BI and SQL to access and analyze 10,000 survey responses across 10 cities, revealing demographic preferences, consumer choices, competition analysis, and effective marketing channels.
- Leveraged the findings to support strategic decisions on brand awareness, penetration, purchase behavior, and potential product development areas.

Certifications

- 360DigiTMG PowerBI Certification- [View Certificate](#)
- 360DigiTMG Python Certification - [View Certificate](#)
- Codebasics Excel Certification- [View Certificate](#)
- Codebasics SQL Certification- [View Certificate](#)
- Demonstrated proficiency in SQL through successful completion of the TestDome SQL Certification exam - [View Certificate](#)
- Achieved a top rating of 3 stars in MySQL and Python on HackerRank - [View Certificate](#)
- Awarded an appreciation certificate for excellence in the Codebasics Resume Project Challenge – [View Certificate](#)
